

ATHLON

**ALL YOU WILL
EVER NEED
TO SCULP
YOUR BODY**

Functional Trainer which
stands out from all the rest

ATHLON
UNIQUE

COMMERCIAL FITNESS EQUIPMENT

INTRODUCTION

A single functional training station designed and built by Athlon allows you to perform both **total body workout** and **sports specific training**. With complete **freedom of movement** in all directions by performing weight resistance exercises, you can change the angle, resistance and perform an infinite range of **natural movements** with **more than 300 different exercises**.

It is a truly **innovative approach** that combines the best aspects of selectorized and cable-based strength training equipment. Being **developed for professional use** and featuring a unique and distinguished design, high performance and quality, both man and women find it their **favorite fitness machine**.

HOW IT WORKS

Adjust the arms, load the weight and start your training.

EASY & FAST ADJUSTMENT FOR EACH ARM INDEPENDENTLY

by moving it vertically and horizontally in order to make full use of the many settings available.

ADJUST THE ARMS HORIZONTALLY

by pulling down the knob; then use the other hand to move the arms to the desired position and release the knob.

EXTENSIVE CABLE TRAVEL

allows you to perform virtually any movement through practically 360 degrees with maximum fluidity.

ATHLON

ADJUST THE ARMS VERTICALLY

by holding one arm at a time with one hand and using the other hand to pullout the knob. Move the arms to the desired position and release the knob.

LOAD THE RESISTANCE

by pulling out the selector pin from weight stacks and then inserting it into the weight you want to use.

SWIVELING PULLEYS & HANDLES

can move independently; when necessary, a quick attachment change is possible for each arm.

The image shows a piece of exercise equipment called the Athlon Unique. It features a vertical black frame with the brand name 'ATHLON' written vertically in orange on the left side. A horizontal black arm extends from the frame, ending in a red and black handle. The handle has a unique shape with three finger loops and a central grip. A yellow adjustment knob is visible on the arm's pivot point. The background is a light-colored wall with some ceiling lights.

EXPECT MORE

FREEDOM IN ALL DIRECTIONS

Unlike any other piece of equipment, Athlon Unique allows the user to perform an almost **unlimited range of motion** due to its articulating **rotating arms**, **swiveling pulleys** and **extensive cable travel**. Each exercise arm rotates with a large number of vertical and horizontal settings to accommodate virtually any **movement pattern through practically 360 degrees** with maximum fluidity. The arms are counterbalanced for easy adjustment and positioning. This innovative system **allows the user to move three-dimensionally** whilst providing resistance to every possible movement without cable interference.

LARGE NUMBER OF EXERCISES

Unique has been designed to meet all training needs by **targeting every part of the body** and it is **suitable for all kinds of users**, from beginners to experts. Thanks to the several arm adjustments and accessories, the user can perform **more than 300 exercises**. Different muscles can be **simultaneously and synergically activated** by simply changing the body position or adding a rotation to the movement. It is the best solution for **sport specific training**.

SPACE SAVING

Athlon Unique combines a **stylish design** with maximum performance, while at the same time taking care of the space. The result is **minimum use of space when performing exercises**. It occupies very little space when it is not in use, so it can be fitted almost anywhere.

EASY & SAFE USE

The design and biomechanical performance allow **easy and friendly use in total safety for every user**. The **handle is always ready** for use and you can immediately start with the workout. Immediate and intuitive arm exercise adjustments allow you to move freely with minimal interference with the body.

ERGONOMIC

Each arm has a rotating swivel pulley that connects the arm via cable to an **ergonomic and comfortable handgrip** in order to perform virtually unlimited movements. This sophisticated and revolutionary system, which allows you to **be connected in the best possible way** with the functional trainer, is the result of Athlon's technological expertise.

HOME WORKOUTS

Gain chest & arm muscles and **sculpt your body with professional equipment** in your own home whilst using minimum floor space when performing exercises.

ADDITIONAL WORKOUTS

Discover our functional trainer and let it impress you.

With Unique you are able to perform suspension training with bodyweight and use the adjustable arms to perform extra number of exercises.

THE REAL BENEFITS
